

THE NEED FOR SPEED

GAUSS™ Advanced Mathematical and Statistical System

Econometrics

Engineering

Finance

Statistics

Risk Analysis

Fast Execution

Rapid Development

Flexible Deployment

Functionality

Optimized for Matrices

If you have the need for speed with the power and flexibility to process unique, complex data sets with millions of observations, strap in to GAUSS.

The GAUSS programming system is optimized for matrices. Get maximum execution speed, with a simple, direct syntax for fast development. Know exactly how your calculations are being performed, with the power and speed canned software packages can't provide. GAUSS is your solution to complex mathematical computation.

Program the way you think.
